Sensational Sensations Rajan Sankran

EH 2.5
Synthesis TE 2009

New Radar features

Radars 10.5 has many amazing new features and modules. For all those who already have Radar 10.x we supply Radar 10.5 for free (optional modules not included ¹)

- **Families Repertory** Will Taylor, scientifically reliable and fully updated.
- **Graphical Families access¹** Will Taylor, Amazing functionality; access quickly any family via clear schemas.

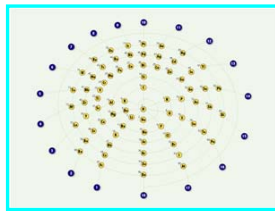

- **Family Themes¹** Jenni Tree, Kim Elia, a of collection of families themes.

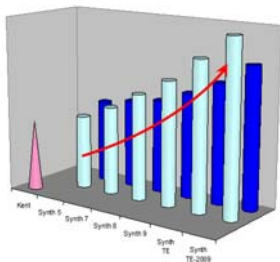

- **Periodic Table¹** Jan Scholten Table.

- **Jan Scholten: All Books¹** A great EH book package with all Scholtens books.

- **Synthesis TE²⁰⁰⁹**

Frederik Schroyens guarantees that classical homeopathic values are not compromised. All additions made with full source text (vs 8 upwards). You keep control with our Views !!

No other

repertory comes close in quality and quantity. Access more information than ever before. *Many schools have chosen the **Essential Synthesis** in book format for their students.*

Quality is found to be of utmost importance again.

- **Rajan Sankran¹** Schema Families, Themes, Miasmas. A fantastic graphical overview, with all his *Schema* - information.

- **Repertory of Mental Qualities¹** Jeremy Sherr, a great repertory tool.

- **Luc de Schepper 'Newsletter' and Module¹**

Now ask questions about the module, the lectures and live cases. Learn from this great classical homeopathic master.

Become again confident in traditional approaches during these confusing times. Now with NVKH, VNT, NOKH accepted **post graduate training.**

Follow a training day from the comfort of your home! (Video 1 Organon / 2 Module)

- **Many new features and modules** Improved user control over quality of additions. Remove unwanted remedies. New Remedy Synonyms list. Improved Multimedia functions.

For teachers who do provings a new tool to repertorise your proving. In a new personal EH database quickly make additions from seminar notes, or cured cases.

Radars 7, 8, 9 users: now is the time to Update !!

Synthesis TE 2009

With One Year Free Live Update Downloads!!!

New Remedies + Classical Additions and corrections

The largest,
The most reliable,

With Full user control, and Full Source information.

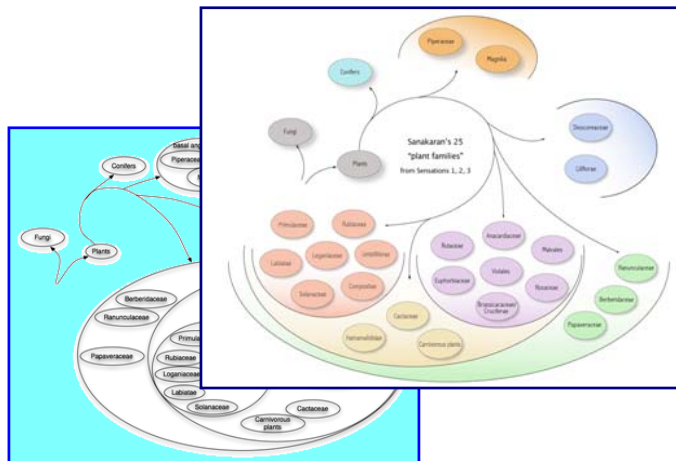

Yes you can eliminate uncertified remedies and authors!!

If Quality is important for you !

Not convinced yet about Radar 10.5...

All Rajan Sankarans families

Fantastic graphical access to all Rajan's themes and families information. Highlight or Limit your analysis to his families.

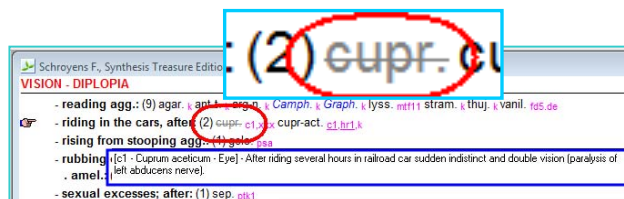

Reliability and Quality of Synthesis

You want a repertory that you can rely on!? Frederik Schroyens sees to it that you can keep on doing so. For example remedy corrections are

identified with Strikethrough.

[Click on photo and read about his seminar tour](#)

Vision – Diplopia – riding in the cars; after **Cupr. is corrected**

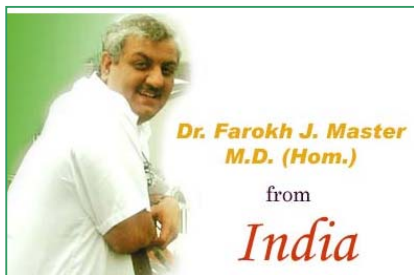

All additions are classified (from classical sources, Hahnemannian provings - meditation and dream provings or theoretical speculative information). From Synthesis 8 onwards always exact **Source information** is included with each addition.

With Synthesis You will always stay in control.

You are able to determine which information you want to see and what information YOU have confidence in. All of this with the possibility to see your analysis result using a different VIEW of the repertory. For example YOU can determine that you have more confidence in provings done by [Alastair Gray](#) following Hahnemannian methods than a 'dream or meditation proving'. Radar and Synthesis provide the flexibility you need!

Other new modules and features coming in 2009 for Radar 10.5

Diagnostic method'. [\(Video: allow 10% pre-loading\)](#)
