

Dr. Tarkeshwar Jain

Classical Homeopathic Cases

An international 2 day Seminar 30th/31st January 2010
Amersfoort - The Netherlands

Classical homeopathy from 20 years experience in a busy practice in Jaipur India.

Cases illustrating.

- reversal of pathologies,
- transition of disease from one deeper layer to superficial layer,
- evidence of exteriorization of symptoms during follow ups,

Acute and chronic video cases with follow up videos.

- identifying prescribing symptoms,
- finding the correct rubrics and,
- explaining language of repertory.

Case management of acute and chronic cases.

- finer details about case taking,
- understanding a case homeopathically will be taught,
- with complete analysis and evaluation of symptoms and,
- involving audience on every step as if they are doing it themselves.

New perspectives of not so well known classical remedies.

Organized by The School voor Homeopathie in Amersfoort - The Netherlands.

For more information about the seminar write to Mieke Koller, email: miekekoller@fiscali.nl
Or you can see the website www.schoolvoorhomeopathie.nl

Plus efficient use of homeopathic software in actual live case situations

- A unique aspect of these two days is that attention will be given to practical and advanced techniques of homeopathic software use.
- Tarkeshwar has setup with René Otter a curriculum covering a wide range of examples of software use during the above cases.
- Participants will be able to learn and try out themselves.

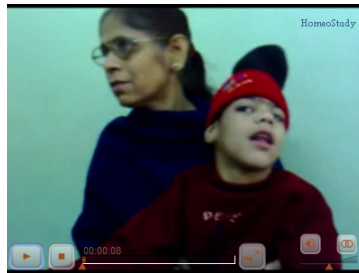

- René Otter will assist with individual questions of participants.

Viewing Radar Instruction videos.

To prepare yourself for the seminar you should view the following instruction videos at <http://www.lutravision.nl/tarkeshwarjain.htm>

More Preparation: *In the next weeks several new instruction videos will come available, covering many aspects of the program use. If you take some time to view them, you will be well prepared and can follow all with ease.*

Contest 'Video Case of a boy with Cerebral Palsy'

Sample case Cerebral Palsy, a boy 4 1/2 years old.

First an acute remedy was prescribed, then followed by constitutional prescribing.

The video case of this boy can be found on www.homeoversity.com (see below)

Participate in a contest of this Case of a boy with Cerebral Palsy.

This first video has been recorded during the first consultation.

Listen carefully to the information, read the transcript provided by Tarkeshwar and try to find out which **acute** remedy was prescribed first on which the convulsions stopped.

Send us your motivated analysis of the case. Include the following...

- The exact rubrics which you found hierarchically to be most important.
- Motivate your remedy choice. Maybe add a Remedy DD.

- Include your full Name + Email details. Attach your document to the email, or enter your case analysis directly in the email.

- You can send your case analysis to René Otter, email: rcotter@planet.nl

Follow up video.

After 2 weeks you will be sent a follow up video with more details of the case.

You can then analyze the case further and try to find the follow up remedy that has been given!

How to send in your analysis report with Rubrics from the repertory (Copy & Paste).

If you send in your case analysis, it is preferable that you include all rubrics that you used in your analysis.

- See the instruction video on how to **Copy and Paste rubrics** from your RADAR program to a Word processor or Email. Participants with other programs, please see program instruction there.
- If you want to prepare yourself well for the seminar, so that you will be able to follow easily all program uses, we advise you to view the first Radar instruction video: **Quick Tour**.

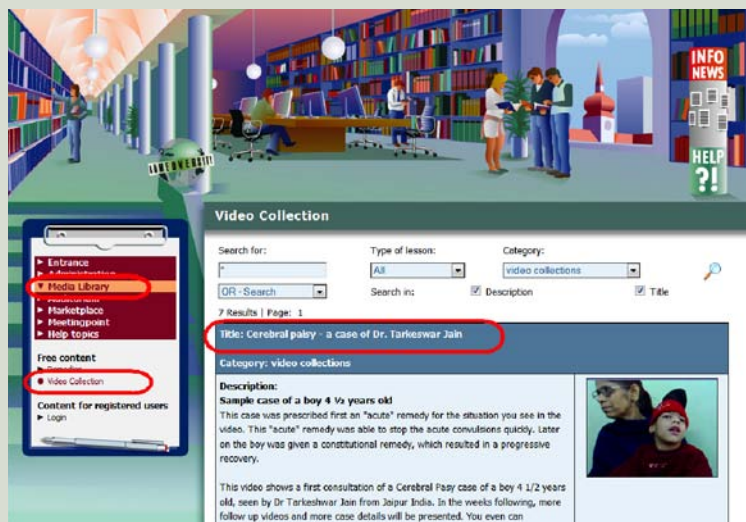

www.homeoversity.com

Select: **Media Library**

Under the section **Free Content** you find **Video Collection**

Via the button **Study lesson** you can start the video.

Note: specific permission has been given by the parents to allow this video to be shown.

You can participate in the contest and even win the following prize

ONE WEEK OF FREE CLINICAL TRAINING at Dr Jain's clinic in Jaipur India including 7 nights free accommodation. Airfare not included.
